

S+

WALVOIL Multifunction Handle

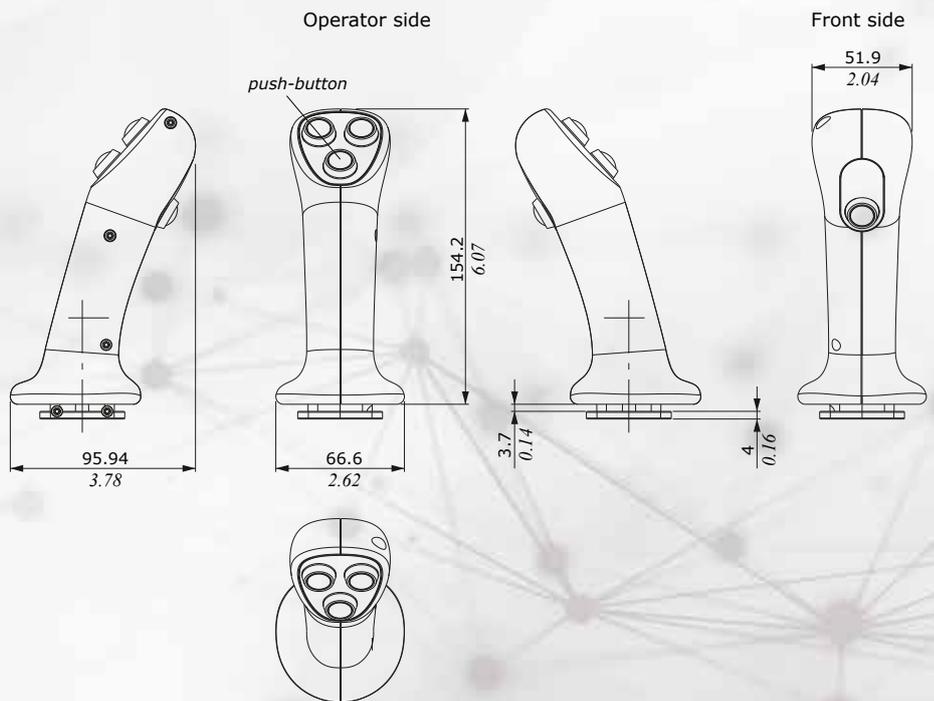

The new S+ handle has been developed by Walvoil to combine the requirements of ergonomics and real compact design, ensuring high level of comfort for operator.

The symmetric design makes it suitable for both right and left hand applications. Up to 3 control devices (roller, push buttons) on the operator side. As option, in the front side it is possible to fit one vertical roller or up to 2 push-buttons.

Configuration example
