SDX new bankable valve: focus on electric control.

Compact Hydraulics for Walvoil is a consolidated and strategic product line composed not only by a huge offer of components but by an offer/proposals of integrated solution (Manifolds) for many different applications. SAE cartridges, Parts in Body, Flow Diverters are mainly composing the portfolio of Compact Hydraulics through specific catalogues and specific web site selection guide.

One of the emerging product family of the Walvoil Compact Hydraulic is a sectional on off valves also named

bankables.

At bauma 2019, Walvoil will launch a new product that completes the wide range of SDE030 and SDE060 stackables valves.

The new SDX has been developed to offer to the market a compact solution with high control performance following the modern needs for high value power density.

The drive line of the product layout has been the mobile market. The accuracy in the control is ensured by Walvoil's components common use largely tested.

SDX will be rightly placed in the Walvoil range with a clear market positioning concerning price and performances.

Mobile market, Aerial Platform, Truck mounted Cranes, Attachments, Municipal Vehicles, and all the applications where a flow up to 40LPM per section with local compensation and Ls pumps combination is requested, are the perfect application field of this new family, that will integrate the well known range of proportional pre and post compensated controls already produced by Walvoil.

About Walvoil

Walvoil, part of the Interpump Group, merges also both the experiences and Hydrocontrol and Galtech brands.

Among the main manufacturers of integrated hydraulic products, electronics and complete mechatronics systems, Walvoil designs the future of motion in close touch with its customers and its partners from different sectors and markets.

Present in Italy with seven production sites and a well reknown Test Department, that is the core of all its R&D activities, Walvoil can count also on eight branches in four continents and a capillary sales network allowing the company to be close to its main markets worldwide.
