WE ARE PLEASED TO INVITE YOU

TO BAUMA 2025

In line with some of the trend topics for Bauma 2025 and focusing on *“Climate neutrality”*, *“Alternative drive concepts”*, and *“Sustainable construction”*, Walvoil’s **Hydraulic Digital Solutions** will be featured in Munich in April.

Among them: the evolution of the **ALS – Adaptive Load Sensing System**, the **EPX – Energy Recovery** concept and the new **Operating Assistance System for Excavators**.

The completion of the PWLS pump range and the new Solenoid Proportional Valves, are the other news you will find at Bauma.
