HALL 18
BOOTH C21

WE ARE PLEASED TO INVITE YOU

AT EIMA 2026

The 2026 edition of EIMA is dedicated to 'Design Agricultural Future'. This is an event that **Walvoil** – for whom design, as an interpretation of the future, is in its very DNA – simply cannot miss.

It is in Bologna, in fact, that we will be presenting the **projects, products** and **systems** that meet the needs of an increasingly smart agricultural sector, whilst ensuring that control over the tasks to be carried out remains in the hands of the operator.

Come and visit us to experience **Walvoil's Digital Applications**, part of our **Hydraulic Digital Solutions**, and our range of 'Safety and security' solutions.

We look forward to seeing you in Bologna!
